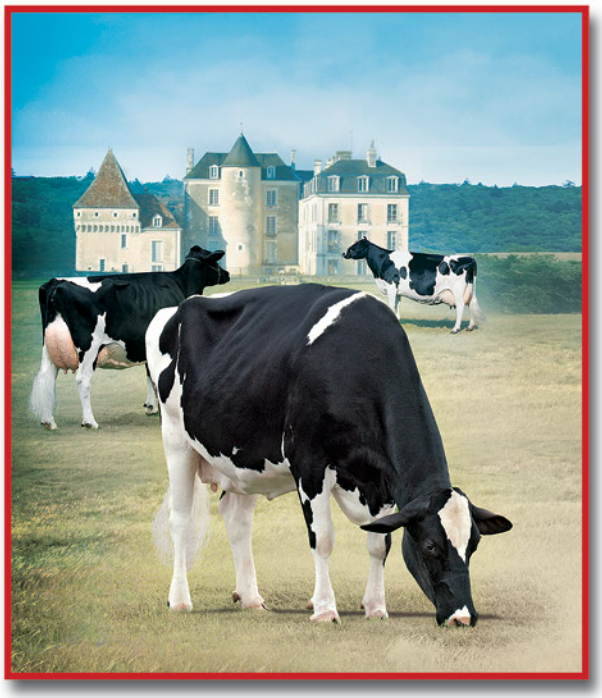
BAA of 115.1 with *all* Homebred Cows



I would like to invite you to our open house on Sunday, June 8, 2014 from noon to 5PM. It will be Lana Rae's seventeenth birthday and a chance to see her daughters, granddaughters and great-granddaughters being offered in Le Grande Finale at Gloryland Tag Sale on June 9-11, 2014. As many may know this is the end of Gloryland Holsteins and the start of Hy-Class Holsteins at Gloryland for Greg and Jenny Resler who will take over ownership on July 1, 2014. Lana Rae, Liberty Rae and Lexie Rae will remain here until their death and be buried in the circle. I will continue to help out where needed and promote the cattle for live and embryo sales.

The best bulls used on the Lana Rae branch of the Roxys have been Durham, Destry, Goldwyn, Advent and Acme. Acme has an extremely nice group of calves being offered. It is my regret that I won't be able to calve this group in as they are full of potential.

The last couple years have been challenging for me and it has not been easy to buy the top quality hay needed to produce large records. Luckily, this past year, a good steady source of hay has been found and the cows are back in top form. The herd has been fed hay, grain and pasture for the last 24 years. It is probably the most satisfying sight to see the cows going to pasture in the springtime. Especially, this year after a colder, wetter, winter they seemed to really enjoy the lush green grass. God made cows to be ruminants to eat grass and forages. The Roxys are probably the top foraging cows in the business. They love to eat and with maturity develop some of the most beautiful dairy frames in the business. The Lana Raes are no exception to this and continue to possess the youthful look with beautiful mammary systems.

I would like to thank a few people who have helped me over the years. Chris Reichard has done a great job in preparing the animals for pictures and classifications. Billy Joe and Betty Heath have taken the greatest pictures for us. Westwynde Communications, Pam Nunes and Leasha LaBruzzi, have done a fantastic job of promoting and advertising Gloryland Holsteins in print ads and on our website. I thank all of you from the bottom of my heart.

I want to thank my family for their constant help and understanding. My wife, Annie, keeps the place beautiful with flowers. My parents, Jim and Joan, who started Gloryland Holsteins over 61 years ago. (Mom still goes to the barn at 4AM to help milk as she has done for the past 61 years.) My sister, Melanie, who is always there when you need a helping hand for pictures, classification, etc. Life goes on... and it will be different for me, but I hope to be able to travel and see the Lana Raes around the world as we have exported to 17 different countries.

love

Happy 17th birthday, Lana Rae. We have been through the good times and bad, together. We have survived. Wishing you many more good days. Love, Dave

ad© WESTWYNDE.com Roxy © Bob Miller other images © Billy Heath

Last Chance

Lana Rae's legacy. Not only is she a homebred beauty, she is a seventh generation Excellent cow and a direct descendant of C Glenridge Citation Roxy (4E-97, GMD) the original "Queen." Lana Rae out produced the queen with her 19th Excellent daughter. Even more impressive is the fact that all of Lana Rae's Excellent daughters also have Excellent udders - a trait for which this branch of the Roxies is well known. Lana Rae's 25 scored daughters average 90.03 points, and that is a legacy you can build on!
